

THE MOST RELIABLE AND COST-EFFECTIVE WAY TO TRANSMIT ELECTRONIC CLAIMS

InterfaceEDI is a fully integrated software package that allows for the seamless sending of claims thru Medisoft to the nations top clearinghouses: Availity and HealthSmart

Simple Operation—Easy Setup—No Downtime

REASONS TO MAKE THE SWITCH TO InterfaceEDI

- Virtually ONE button operation prepares claims to be sent electronically to your clearinghouse over your internet connection
- Claims are immediately edited for valid content including missing information as well as insurance carrier specific information
- Users have the ability to view and print 835s or electronic EOBs when signed up at the clearinghouse to receive them. Individual EOBs can be printed for secondary claims
- After entering payments and adjustments into Medisoft, send secondary claims electronically
- It is much simpler to use than other modules and can be operated by a relative novice to electronic billing
- Users have the ability to customize many of the options and filters within the program
- Allows for the sending of Institutional claims (option available at an additional charge)
- Installation and setup takes about 30 minutes, including training
- Registration can quickly be done online

LET US PROVE IT TO YOU

- Unlimited Free Program Updates (during registration period) - Program is constantly being updated to comply with current standards and requirements
- Submit unlimited claims for multiple providers during the annual registration period for only \$599

TRY IT BEFORE YOU BUY IT!!
